PROFESSIONAL SUMMARY

Aspiring Data Scientist & AI/ML Engineer pursuing B.E. in Artificial Intelligence & Data Science (CGPA: 8.51) at DYPIEMR, Pune. Hands-on experience building end-to-end ML systems, predictive data pipelines, and real-time AI applications using Python, Scikit-learn, and FastAPI. Proficient in data analysis, EDA, supervised learning, anomaly detection, and time-series forecasting. Seeking an entry-level role to apply analytical and ML skills to drive data-driven insights.

EDUCATION

B.E. — Artificial Intelligence & Data Science

2023 – 2027

Dr. D. Y. Patil Institute of Engineering, Management & Research (DYPIEMR), Pune

TECHNICAL SKILLS

Languages	: Python, C++, SQL
Data & ML	: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, Prophet, PyTorch
ML Techniques	: Supervised Learning, Predictive Modeling, EDA, Anomaly Detection, Time-Series Forecasting, Data Preprocessing
Backend & APIs	: FastAPI, REST APIs, PostgreSQL
Visualisation	: Power BI, Matplotlib, Seaborn
DevTools	: Git, GitHub, Jupyter Notebook, VS Code, Vercel, Netlify

PROJECTS

GreenCO2

Python · FastAPI · PostgreSQL · Supabase · React · Vercel

- ▶ Built an end-to-end AI pipeline for real-time environmental CO₂ monitoring with anomaly detection and time-series forecasting.
- ▶ Implemented Isolation Forest algorithm for anomaly detection; integrated Prophet for predictive time-series analysis.
- ▶ Designed a scalable FastAPI backend with PostgreSQL/Supabase, and a React dashboard for live data visualisation.

AQI Prediction Model

Python · Scikit-learn · Pandas · EDA

- ▶ Engineered a supervised ML model to predict Air Quality Index from environmental variables with focus on feature selection and model accuracy.
- ▶ Performed end-to-end data preprocessing, EDA, and model evaluation using Python data science libraries.

CERTIFICATIONS

- ▶ Data Analysis with Python — IBM (Coursera)
- ▶ Machine Learning with Python — IBM (Coursera)
- ▶ Collaborate Effectively for Professional Success — IBM (Coursera)

HACKATHONS & LEADERSHIP

- ▶ Smart India Hackathon (SIH) 2025 — Team Leader; qualified through College-Level Round.
- ▶ Joint Technical Head, Novus Neuron Club (DYPIEMR): Guided junior members on ML projects and data science workflows; 2025–Present.
- ▶ Departmental Coordinator, AI & DS Dept. (DYPIEMR): Organised workshops on ML, data science, and emerging AI technologies; 2025–Present.
